

**POSTDOCTORAL RESEARCH ASSOCIATE POSITION**  
**Experimental High Energy Physics**  
**University of Toronto**

Applications are invited for a postdoctoral fellow/research associate position in the University of Toronto Experimental High Energy Physics group. The group has an active program of participation in the ATLAS experiment at the Large Hadron Collider, and is one of those responsible for the maintenance and running of the ATLAS Forward Calorimeters, the Beam Condition Monitors, and the Diamond Beam Monitors. The present position is aimed at someone who will take responsibility for the maintenance and operation of the forward calorimeter. The group has an active program of ATLAS physics analysis, particularly in the areas of top-quark physics, Higgs physics and searches for exotica. The successful candidate will be expected to participate in this programme. The position is available starting from the 1<sup>st</sup> of October 2016. It is based at CERN. Candidates should supply a resume, a description of research interests and three letters of reference, to **Ms. Crystal Liao, Department of Physics, University of Toronto, 60 St. George St., Toronto, Ontario, M5S 1A7, Canada.** Applications may be submitted by email to [cliao@physics.utoronto.ca](mailto:cliao@physics.utoronto.ca). For information about the position send email to [orr@physics.utoronto.ca](mailto:orr@physics.utoronto.ca). The review of applications will begin on 1<sup>st</sup> September 2016, but applications will be accepted until the position is filled.

In accordance with Canadian immigration regulations, this advertisement is directed in the first instance to Canadian citizens or permanent residents. Nonetheless, all qualified applicants are encouraged to apply.
