

PHY1600S - Effective Communication for Scientists

Assignment #10 – 15 March 2016

A Personal Vision Statement, or A Second Chance!

Do **one** and only one of the following four possibilities:

- A. Popular interview question asks where you see yourself in two, or five, or ten years' time. Many institutions and private enterprises have a Vision Statement. What vision do you have for yourself, five or ten years into the future? As one of the songs in the musical *South Pacific* goes:

*You gotta have a dream,
If you don't have a dream,
How you gonna have a dream come true?*

- So, in the usual 600 words or less, write a personal vision statement – what do you hope for yourself in the future, professionally, personally, and what goals have you set for yourself?
- B. Two parts to this one: design your own assignment, and answer it, in 600 words or less.
(Completion of both parts is necessary for credit!)
- C. Choose the assignment that you had most difficulty with, and rewrite it, taking my comments into account (that doesn't mean you should follow them unless you choose to!).
- D. Complete one of the assignments that you missed when it was first offered.
