
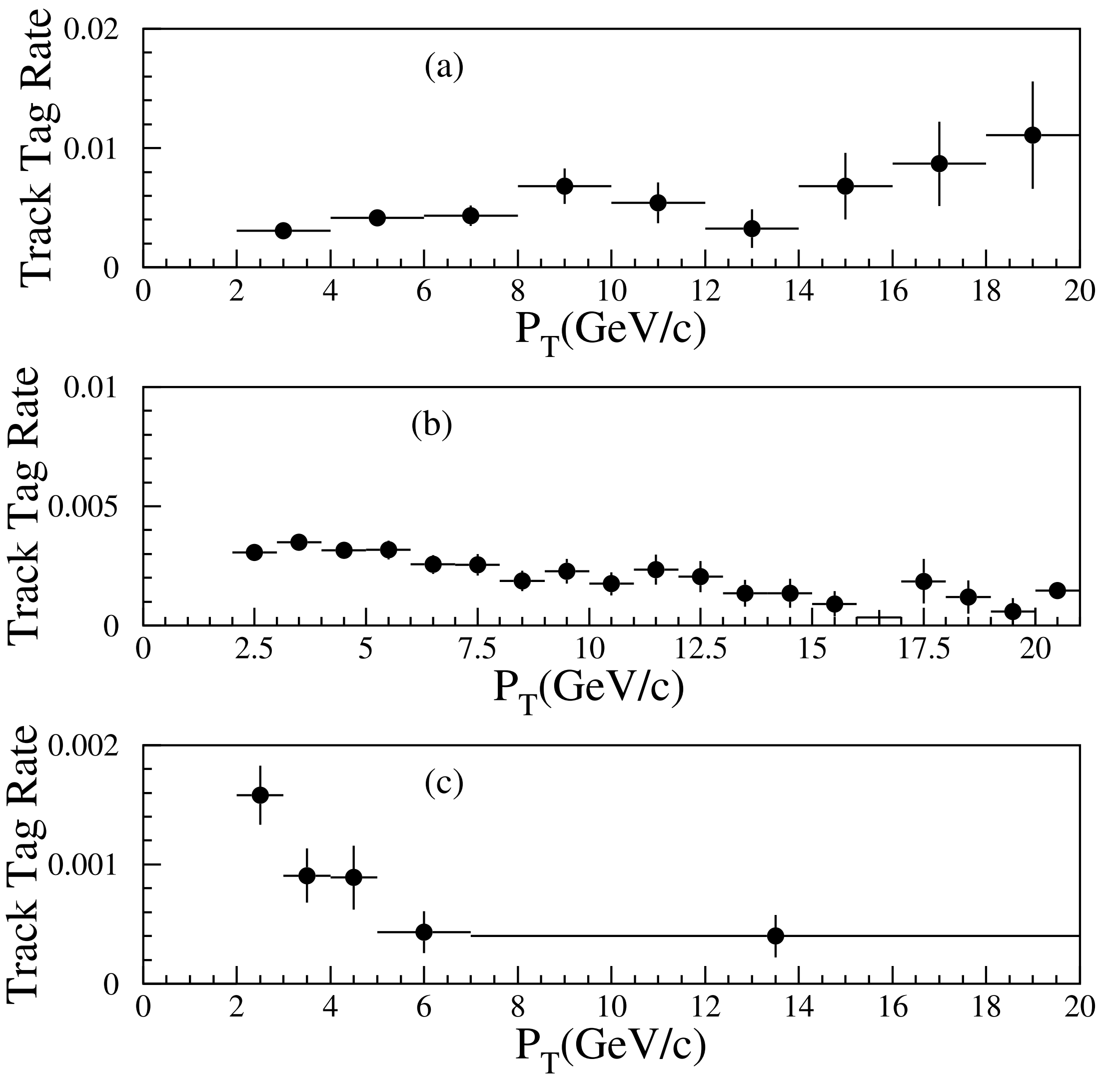

Figure 38: Track-tag rates for the electron search for tracks satisfying (a) $\frac{\sum p}{p} < 0.2$, where $\sum p$ is the scalar sum of the momenta of all other tracks within a cone of 0.2, and p is the momentum of the track. (b) $0.2 < \frac{\sum p}{p} < 5$. (c) $\frac{\sum p}{p} > 5$.
